SOLADIGM ANNOUNCES WINNERS OF 2011 COLLEGE SCHOLARSHIP

Two DeSoto County, Mississippi Students Receive Full-Tuition Scholarships

Milpitas, Calif. and Olive Branch, Miss.—May 4, 2011—Soladigm, a developer of highly energy-efficient Dynamic Glass for next-generation buildings with commercial manufacturing facilities in Mississippi, today announced it has selected the 2011 winners of the Soladigm College Scholarship. The award, which recognizes two DeSoto County high school seniors who demonstrate exceptional academic and leadership skills, will provide full-tuition to any public or private college or university in the state of Mississippi in the fields of science and engineering.

This year's winners were Samuel Thompson and Zuzanna Witkiewicz, both from Olive Branch High School. Both students plan to attend Mississippi State University, with Thompson pursuing an electrical engineering degree and Witkiewicz pursuing a chemistry degree.

"At Soladigm, we see first-hand the impact of the great work of our scientists and engineers," said Dr. Rao Mulpuri, CEO of Soladigm. "Soladigm is proud to support such promising students as they pursue careers in science and engineering. We look forward to continuing this program to build a legacy of success from DeSoto County's best and brightest."

Soladigm plans to repeat the program annually to support the development and education of Mississippi's most promising students in engineering and science. Nominations for the 2012 scholarship will open on January 2, 2012.

About Soladigm

Soladigm is a developer of next-generation green building solutions designed to improve energy efficiency. The company's highly energy-efficient Dynamic Glass switches from clear to tinted on

demand, resulting in significant cost savings, environmental benefits, and quality of life enhancements. Soladigm is headquartered in Milpitas, California. For more information, visit www.soladigm.com.
